Summers 2018, Tech GD Workshop

Tech GDs

Companies with GD

Companies without GD

An example

Suggest 2 features to increase EDGE's browser market share by X% over the next 5 years

What is the situation? Where do we want to be? How do we get there?

We will cover metrics in detail in other sessions…

Start with the customer	What is the user need that EDGE is meant to address?	What are the other alternatives?	Recommendation and Metrics
Who are the customers and how do you segment them? (*Mobile vs Desktop, iOS vs Android, Home vs Enterprise, Geography etc.*) Ask for data; If not available, make assumptions, justify them and move on. Narrow down the scope of the problem, if possible. *(Ex: Home users using Android mobile in the United States)*	Is EDGE meant to be used for Search? Visit websites? Consume content? Get things done? Develop applications? How are people using browsers these days? Is voice becoming the primary focus?	Why is our market share low? On which of the above needs are our competitors out performing us? Who are our competitors? (Is it Google Chrome or is it all of the apps?) What are the complementors that our competitors have? What is their added value? What does Porter's 5 forces say?	Recommendation to always follow from your analysis – • Could you think of strengthening via complementors? • If you can't beat Google in search, can Voice become your USP? • Should EDGE be mobile only? Can you fight the battle of perceptions? Wear your marketing hats? • If apps are your competitors and you can't drive users out, can you move power app searches?

Possible topics?

- VISA / Uber – Combination of tech with their business
  - Achieving Financial Inclusion in India using technology
  - Curbing black money using tech
  - Increase share in cab aggregator business – what technologies can be deployed?
- FMCG IT - HUL, P&G, Mondelez all had case based discussion
  - Distribution – Tie-up with e-commerce or sell thru own websites (P&G – Group Interview)
  - GST Implementation in code – Go or No-Go in Q4 (HUL - 1page case)
  - Quality Issues on an imminent product release – Decision? (Mondelez)
